

CVTC is looking fantastic, and we're so excited about the start of camp in just a few weeks!! All our winter rains have created such a beautiful landscape not only at camp but all around us! Cachagua Creek started running in January, continues to flow now and may run all through the summer – it is so peaceful to see and to hear.

We've made more improvements for the CVTC experience this summer such as new Saturday **relay games** including **limbo poles and giant eggs and spoons**, more lawn games with a **new badminton net, high speed internet** for the Office for better communication with our families and **Spotify for camp music**, extensive **landscaping** and **new fencing**, a "cute" **new storage barn**, and a **refurbished Staff House** with new workout equipment for the staff.

Our CVTC staff this summer is outstanding and great role models for our campers. Nine different countries make up this great group of college tennis players – a few highlights:

Alejandro Alcaraz – 2nd summer, team captain, majoring in Artificial Intelligence, from Mexico

Jamie CoConis – 2nd summer, transferred to University of Colorado from Emerson College, from Connecticut.

Ryan Hayes – five year CVTC camper, 1st summer on staff, playing at Lewis and Clark College from California

Zorana Jovanovic – 1st summer, soon to graduate from Southwest Baptist University with a degree in International Business, from Serbia
